

# Skin.

Products, cures, spa and cosmetic treatments abound. Many promises are made.

How do you separate fact from fiction? There's one very simple answer: put yourself in the hands of a Board-Certified dermatologist.

Our practice is the real thing: a dermatology clinic that also provides a full range of cosmetic skin treatments. We take care of skin using only safe, FDA-tested products and doctor-approved procedures. In addition, our qualified aestheticians work under a dermatologist's supervision.

Your skin deserves science, along with most up-to-date knowledge and technology.

At Connolly Skin Care, all treatments involve:

- A comprehensive analysis of your skin
- A review of your current skin regimen
- Deep pore cleansing and hot towel treatment
- An individualized new skin care regimen

## Aesthetic Dermatology Services

### Microdermabrasion & Facial Cleansing

## Laser Hair Removal

We have long experience in the safe use of laser technology to remove hair. Our aestheticians work under medical supervision in a scrupulously clean environment.

## Wrinkle Reduction

While frown lines and facial wrinkles are permanent features, their appearance can often be greatly reduced. Generally, treatments involve injections to increase moisture retention. In addition, we can control and restrict specific facial muscles. Our doctors will assess your potential and provide you with a detailed explanation of all procedures.

## Laser skin resurfacing

Please request a consult with a physician.

*It's about looking and feeling your best. And only a Board-Certified, dermatologist can tell you the full story about your skin.*
